

VOLUNTEER TO EMPOWER

If you are interested to serve the society to the best of your ability, here is an opportunity! **Legal Education Awareness Foundation** gives you an opportunity to volunteer with Team **LEAF**.

Under the guidance and leadership of Hon'ble Prime Minister **Shri. Narendra Modi Ji**, the Ministry of Human Resource Development, Government of India, has come up with reforms in our education system such as '**Vidyanjali**'. The schemes aim at directing volunteers into the education sector and creating awareness amongst the students to empower them with reasonable powers of expressing their views.

The volunteer program extends for a year with the certificates of volunteership after every event. Anybody from any field can apply, including freshers, undergraduate students and even school students at the age of 17.
