

*“O ye brothers, arise! Awake! How much longer would you remain asleep!”*

– Swami Vivekananda

Time and again we hear news about the rights of many innocents being violated and that they are unable to assist them legally thus, do not reach to the justice that they need.

Legal Education Awareness foundation is an initiative that aims not only to apprise people about the legal provisions prevailing in the country but we here, also aim to awaken them about the steps that they can take towards rewarding them with legal justice without fearing the proceedings that happen to take place in all over the country. We wish to elevate the standard of the Indians to the “**Awakened Indians**”

So, with a mission of awakening India by means of expanding the ambit of legal education and getting it beyond to that of law schools we present you **Legal Education Awareness Foundation.**
