ABOUT LEAF

Legal Education Awareness Foundation (Reg. No. 929) is a Non-governmental Organisation which aims at spreading legal education to all parts of the society, beyond social and economic barriers. LEAF was established with the sole objective of awakening the citizens of the country. LEAF believes that legal education needs to cross its lines beyond the four walls of law schools and courts since it seems to be a need of the hour owing to exploitation that is happening due to lack of legal awareness in people.

ABOUT THE COURSE

Moot is one of the most anticipated, challenging and enjoyable activity in Law Schools which presents a whole new world of learning to the participants (mooters). Mooting is not only confined to the four walls of law schools, but has also gained recognition at national and international levels.

There are many law students who wish to moot but are unable to actively participate in the activity due to improper or no guidance and training in the same. Thus to solve this difficulty LEAF introduces a 30 days online course on “Excellence in mooting and memo making” which will not only help a law student to understand the nuances of mooting but will also make him/her capable to master various stages of becoming a good mooter, right from the stage of memo making to the oral rounds.

Benefits of the Course

- Access to study material exclusively prepared by LEAF.
- Access to 10 of the best sample memorials (national as well as international moots).
- Quickly and effectively prepare memorials in upcoming moots.
- Understand the nuances of mooting.
